**DEAR BUSINESS CUSTOMERS AND PARTNERS!**

Since its foundation, the BBL Logistik Group has made a name for itself as a reliable partner in rail transport logistics, rail vehicle maintenance, infrastructure and railway consulting. Whether it is about safe transportation, provision of technology and qualified personnel, internal or external construction site logistics, complete logistics planning or workshop services regarding rail wagons, traction and auxiliary vehicles – the experienced and competent experts of BBL Logistik GmbH, BBL Technik GmbH and BBL Consulting GmbH provide high-quality and reliable services to you. We face new tasks and challenges with flexibility and innovative adaptation. The basis of our success is customer-oriented, open communication. Efficiency and safety have defined our mindset and actions for over 10 years.

Despite sometimes difficult conditions BBL was able to successfully position and establish itself as an integrated systems provider of services in the railway construction sector. Our company's dynamic growth is based not least on sustainable investments, services in line with the market and fair conditions. The positive development in terms of turnover and staff, which has been observed ever since the company was founded, speaks for itself. On the following pages you'll learn more about the services BBL can provide to you. We hope you'll find this brochure interesting.

Sincerely

Jens Ziese

Thomas Gritzka

Chief Executive Officers of BBL Logistik GmbH

## LOGISTIK

- Locomotives of different performance classes
- Freight wagons of all types
- Means of transport of all kinds
- Rail-road excavators and vehicles
- Rail-bound auxiliary vehicles
- Other vehicles and equipment for the construction and logistics sector
- Railway operating personnel of all requirement categories
- Education and training of railway operating personnel

## CONSULTING

- Railway management of external companies
- Construction supervision
- Concept design and efficiency analysis
- Process management for integrated management systems like ISO, ECM, VPI and SIBE (safety certification)

## TECHNIK

- Locomotive repair works
- Wagon repairs according to VPI
- Repair of rail-road excavators and auxiliary vehicles
- Repair of construction machinery
- Leasing of track capacities
- Leasing of storage space
- Leasing of workshop capacities

## RELIABILITY CREATES TRUST

05

The significant increase in turnover and workforce clearly proves that BBL is on the right track, implementing a strategy which focuses on sustainable investments, innovative services and strong service orientation.

We don't make compromises when it comes to the quality of our provided services. With good reason, BBL holds the following certifications and authorisations:

- Licensed railway undertaking according to § 6 General Railway Act
- Safety certification according to § 7a General Railway Act
- Certification in accordance with DIN ISO 9001:2015
- Certified waste management company
- Authorisation as Entity in Charge of Maintenance (ECM)
- VPI approval of maintenance levels G4.0 and Br3
- Authorisation to supply temporary workers
- Certification as educational institution in accordance with AZAV

## INTEGRATED SYSTEMS PROVIDER

Reliability and a high sense of responsibility are the two essential pillars of our corporate philosophy. As an integrated systems provider and modern logistics company we develop and implement comprehensive solutions for our customers and partners that focus on the entire rail-specific logistics process.

We also like to face new tasks, which are assigned to us by our customers, with flexibility and willingness to innovate. As the saying goes: If you don't go forwards, you go backwards. As a full service provider we offer you the complete service package of a modern, rail-specific logistics chain.

## WHAT WE STAND FOR

07

- We face your requirements with flexibility and ability to innovate!
- Within cities, regionally or trans-regionally: We perform on site!
- We focus on open communication to ensure success and quality!
- We critically examine all performances to tap the full potential!
- Safety defines our mindset and actions!
- Our complete services comprise the entire process from logistic planning to on-site implementation!
- All processes take place in a transparent and reliable way!

## BBL LOGISTIK

**LOGISTIK**

We are your partner in both economic and efficient construction site logistics. BBL Logistik offers you a modern, diversified fleet for nearly every area of application and a continuously trained team from a single source. We act as an interface and pool the logistic processes related to any construction site in order to ensure perfect interaction between all partners involved in the project. Smooth and efficient processes are guaranteed through centrally managed construction and operational coordination as well as precise planning and implementation (including follow-up).

### A VERSATILE SERVICE PACKAGE

Every customer has their own specific wishes and requirements. We gladly adapt to them by offering customized solutions. Our versatile portfolio includes:

- Preparation of operation schedules and stabling concepts
- Coordination between construction and operation
- Provision of locomotives, rail wagons, rail-road and auxiliary vehicles as well as railway operating personnel
- Delivery and return of construction machinery
- Material transport from plant to construction site and disposal point
- Quick reaction to short-term changes
- Detailed documentation
- Training of railway operating personnel

## MODERN FLEET

BBL Logistik GmbH regularly invests in new technology. Our comprehensive technical equipment allows us to react in a fast and flexible manner at all times. Our modern technology pool currently features class 214, 203 and 225 locomotives. They are used for shunting and freight operation as well as haul traffic and reach a maximum speed of 140 km/h. Our fleet also includes freight wagons of all types, rail-road excavators with extensive accessory equipment and various auxiliary vehicles.

### THE BASIS OF OUR FLEET CONSISTS OF:

- Locomotives of different performance classes
- Ballast wagons (Fc)
- Tipping wagons (Fas)
- Sleeper wagons (SPS)
- Flat wagons (Res)
- Rail-road excavators (Atlas 1604)

## WELL-TRAINED PERSONNEL

By promoting intensive, continuous education and further training of our employees, we ensure that all BBL experts are always up-to-date with the latest technology and familiar with the requirements of new regulations. Our team consists of:

- Train drivers
- Auxiliary vehicle drivers
- Logistics coordinators
- Train dispatchers
- Wagon technician
- Shunters
- Rail-road excavator operators
- Other personnel upon request

Use our know-how for the benefit of your success!

## BBL CONSULTING

# BBL

## CONSULTING

Our experts take great care of your construction projects since we provide all services from a single source: from preparations regarding railway operations to construction and operational planning during the year to application for construction and operating instructions. We take professional construction supervision as well as monitoring and supervision of all logistic processes of your construction projects for granted.

BBL Consulting GmbH is a licensed railway undertaking according to §6 General Railway Act and has a safety certification according to §7a General Railway Act.

We consult and support railway, construction and infrastructure companies as well as rail vehicle maintainers by providing state-of-the-art technology while taking current regulations into account.

### Wer transportiert der haftet: Sicherheit für Logistik-Profis aus einer Hand

Wir bieten:

- Logistik Haftpflicht Police
- Warentransport Police
- Frachtführer Police
- Landkasko
- Maschinenversicherung – fahrbare- u. stationäre Arbeitsmaschinen
- D&O und Straf-Rechtsschutz für Entscheider

## A QUALIFIED TEAM

A large number of excellently trained and qualified employees are part of the BBL team. Dispatchers, train drivers, shunters, rail-road excavator operators or wagon technicians – every employee is perfectly familiar with their workspace and guarantees that all tasks are implemented in a professional and reliable way. Above all, this is for your benefit as a customer and partner.

BBL is a certified educational institution and trains its own staff in order to be able to rely on the competence and experience of a strong team in the future. A successful mixture of young talents and experienced experts can thus still be ensured.

## COMPETENT SUPPORT FOR YOU

17

Showing great personal commitment and passion, our well-coordinated experts are on duty for you every day. As a medium-sized company we focus on cooperative partnership, high individual responsibility and efficient processes. BBL always appoints a direct contact person who will be at your disposal, consults you in a comprehensive, competent and reliable manner, and keeps you informed about the current status of ongoing projects. Use the synergies resulting from the close interaction of our departments for the benefit of your success!
