

Trading is our passion,  
**plastic** is our specialty!

**PRO**-plast<sup>®</sup>  
Wir handeln für Sie!

Company

# Our trading platform – your **marketplace** of opportunities!

We have been in the plastic raw materials trading industry for 30 years, uniting demand with supply. Plastic converters, traders and compounders find what they are looking for, or sell us their obsolete plastics.

## A major player in the industry

We always act in the interests of our customers – with technical, high-tech, and TPE/TPU plastics in the form of virgin material, reprocessed material, or TT Compounds®. Our over 2,500 business partners know that they can rely on the quality of our products and dedicated service – whether as a supplier or buyer.

## Buying made easy

We focus on attractive prices and high availability. Two hours after receiving the order, in-stock products can be picked up or shipped. In our 5,000 m<sup>2</sup> high-bay warehouse we continually stock up to 3,000 metric tons of material that can be delivered in small and partial units up to large quantities.

## Making the most of plastic

We re-sell obsolete plastics as virgin material or high-quality re-granulate – a re-use that yields a profit for the seller and benefits the environment through optimal utilization of raw materials. We respond to offers immediately, and if we opt to buy, we do so at transparent, fair conditions.

Service

# Always well served: Our **expertise** is your advantage.

www.pro-plast.com is not just any online platform, but a trading service provider with a large network and excellent service. We take personal approach satisfying our customers' wishes to provide the needed service as quickly as possible.

## **The intelligent plastics trading platform**

Our employees are experts when it comes to plastics. They know the materials, the market, and the potential options and can provide assistance in almost any case. They can organize urgently required materials or have our plastics technicians provide advice regarding alternatives. In some cases, we will speak directly with possible interested parties.

## **The full range of services**

Our "GELBE LISTE" is published quarterly and provides an overview of available plastics – generally around 4,000 items. Current offerings can be viewed on the Internet and be easily requested and purchased. Those who know us know that they can count on fast, dedicated service.

## **Good to know**

Our trade name database from A-Z lists countless plastic raw materials with manufacturers and distributor information as well as the polymer class – a treasure trove of useful information. We know exactly where what is available and are happy to share this information with our customers and those who would like to join their ranks.

Security

# We deliver **quality** across the board.

We want our customers to be satisfied with us over the long term. That is why we offer not only top-notch service but also strict quality controls so that our customers can be sure that they will get only the best from us.

## Exceptional products

We deliver products of exceptional quality in every way: Our storage lots are labeled with the complete trade name, type, color, polymer class, quantity and price. We check the accuracy of all specifications ourselves and ensure proper packaging.

## Seal of approval

Our high standards have carried the seal of approval of DIN EN ISO 9001 certification for over 15 years. We also comply with the EU Chemicals Regulation: We have been "REAChecked" according to DIN EN ISO 19011:2011-12. This gives our customers legal security with our deliveries.
