YOUR SPECIALIST IN SPARE PARTS AND INDUSTRIAL SUPPLIES

COMPLETE SOLUTIONS FOR MORE ECONOMICITY

Akteant is your contact for spare parts, accessories and industrial supplies in the field of industrial plants, automation and measurement technology. Our reference list includes numerous international customers, whose requirements are as diverse as the varied sectors they come from.

You as our customers benefit from a personal service and a sales partner who delivers exactly what is needed, with high flexibility and as quickly as possible: From spare parts to equipment to individual solutions.

Our dedicated and highly qualified team takes care of all your requirements with personal commitment from purchase to service to maintenance.

We will make sure to meet your requirements with one hundred percent satisfaction. In doing so, we cultivate direct exchange and long-term cooperation to ensure effective collaboration - regardless of whether it's employees, customers, partners or manufacturers.

Just contact us!

TIME AND NERVE-RACKING
PRODUCTION DOWNTIMES? YOU CAN
CHANGE THIS NOW!

Our comprehensive range of services for the maintenance and renewal of systems not only secures your production processes, but also provides you with the necessary self-sufficiency to meet customer needs. We provide support in the selection of equipment as well as accessories and will show you all possibilities on the basis of competent advice. Reliability and flexibility make us a partner that our customers have trusted for many years.

We are continuously expanding our product portfolio in close collaboration with the manufacturers in order to be ideally prepared for your requirements.

WORLDWIDE FULLSERVICE SOLUTIONS

BETTER CONNECTED WITHOUT COMPROMISES

As a company that unites tradition with innovation, values such as customer satisfaction, quality and reliability are very important to us. Combined with our know-how and our strong network of partners, this forms the basis of our success. Our long-term extensive international network enables us to respond to your needs in a targeted, flexible and demand-oriented way.

We attach great importance to flat hierarchies, an efficient management and uncomplicated communication. As a result, we have short reaction times and sufficient agility to offer you the best solutions. A motivated team of experts advises you in all matters from initial inquiry to safe delivery and implements your orders every day with enthusiasm.

INDUSTRIAL EQUIPMENT

UNCOMPLICATED AND EFFICIENT

We take care of the search for spare parts, industrial supplies and accessories – uncomplicated and professional. In addition, we organize follow-up products for you if you want to replace or renew existing ones. Together with our partners, we also offer the elaboration and commissioning of automated process control systems: from task analysis and personnel training to turnkey handover.

From A to Z, our main concern is to be the reliable bridge for our customers to the manufacturers, so that you can pick up speed and continue your history of success.

Focus on INDUSTRY SOLUTIONS

ProMinent®

Reliable and competent partner for solutions for

- Efficient dosing technology
- Effective measurement and control technology
- Technologies for water treatment and water disinfection, such as UV and ozone systems
