Welcome to Berlin International School

B.I.S. is a flourishing, well-established IB World School that is student and learning focused. For over 25 years we have offered a challenging and caring learning environment to international and local Berlin students from Grade 1 through to Grade 12 and university entrance preparation.

Today, we have over 820 students from 79 nations who learn and grow together in a dynamic, diverse and multilingual environment. Through our Primary Years Programme and targeted preparation for the International Baccalaureate Diploma Programme (IBDP), we support our students to develop and excel academically, creatively, socially and emotionally. We benefit greatly from our strong and welcoming school community and we encourage parents to actively get engaged to foster a strong partnership between home and school.

Global Citizens

As an IB World School, we foster openness, critical thinking, language development, intercultural understanding, social responsibility, and intercultural learning. Our aim is to support students in becoming articulate, respectful and principled global citizens.

Success in the classroom and beyond

Our focus is on students learning and their well-being; equipping them with the skills and approaches necessary to thrive, be happy and experience success – in the classroom and beyond.

B.I.S. offers transdisciplinary learning, project weeks, service learning opportunities, guest speakers and numerous class trips and excursions.

After school activities play a vital part in our students' development. Students can choose from sporting, cultural, service, and personal enrichment activities that extend beyond the classroom and help to broaden their range of interests. These include Arts, Chess, Choir, Code Club, the Duke of Edinburgh programme, Lego League, Model UN, Robotics, Speech & Debate, Sports, School Newspaper, Student Council or Theater & Musical Productions.

Our school's athletic teams successfully compete in multiple competitions within the German International Schools Sports Tournament (GISST) and other local competitions.

From Pre-School to Grade 1 through to university entrance preparation

Early Learning Center (Age 3-6)

Kita International is a bilingual kindergarten with a focus on English and German languages. The multicultural approach to teaching, playing and learning, lays the foundations for our future learners.

Secondary School (Grade 6-12)

The B.I.S. grade 6-10 curriculum is specifically designed to actively prepare our students for the rigorous IB Diploma Programme in Grades 11 and 12.

Primary School (Grade 1-5)

Our Primary School aims to cultivate curiosity and a thirst for learning in each of our students. We see ourselves as a community of learners who are dedicated to the values of the IB Primary Years Programme and the educational goals of the State of Berlin.

Excellent IBDP examination results

Our graduates consistently excel, with 96% successfully passing the IB Diploma Programme and 25% earning a prestigious bilingual qualification in 2024. Overall students achieved an impressive average score of 35 points, significantly surpassing the global average. This outstanding performance highlights the high quality of our teaching staff and the dedication of our students to academic excellence.

Language programme

We cultivate multilingualism with an emphasis on English and German language acquisition. The dominant language of instruction from Grade 1 - 12 is English, German knowledge is not required at any entry level.

In Grade 1-5 an integrated language approach is used in selected specialist lessons at each grade level. In these subjects English and German language integration is carefully planned to enhance language development.

The curriculum in Grade 6-10 is bilingual, actively developing English and German literacy skills across subjects with varying models of bilingual instruction in order to ensure a responsive approach to the individual language needs of the student. French and Spanish are offered from Grade 6 upwards.

In Grades 11 and 12, the IB Diploma Programme, the language of instruction is English.
