ABOUT US

## Passionate about innovation

Franz Eisele und Söhne GmbH und Co. KG is a major manufacturer of pumps and mixers. Today we can draw on a company history of almost 130 years. With our innovative machines and services, we occupy a pole position in the agriculture and biogas sector.

Powered by the expertise developed over many decades, our family-owned company continuously develops new solutions in pumps and mixers – always in response to constantly changing market conditions.

Honesty, trust and mutual respect are the hallmarks of our work. Our customers appreciate us as a reliable and trustworthy partner. We are familiar with our customers' everyday experience, we know and understand what they do and their day-to-day challenges. This means we are in a position to create ideal solutions and to constantly improve, together. Working as a team, each employee contributes his or her part to the success of the company.

We are dedicated to meeting, or even exceeding, the wishes of our customers with Eisele products. Today and in the future.

### Good to know:

Dank unserer einzigartigen und hauseigenen Thanks to our unique Eisele IE5 motor technology, our mixers and pumps are eligible for government subsidies. Applying is easy. You install a new pump and/or mixer, profit from electricity savings of up to 45% and also receive a subsidy of up to 50% from Germany's BAFA government agency. This is what energy efficiency and sustainability programmes look like today. Please note that this support is only available in Germany.

MANUFACTURING AND PRODUCTION

## Crafted with precision and expertise

We use state-of-the-art manufacturing technologies to produce mixers and pumps for agricultural and biogas applications. Our products are outstanding in the industry in terms of reliability, durability and cost-effectiveness. Our premium products ensure you can work effectively and profitably – because your success is our success. And that's why we put so much passion and skill into achieving market leadership in the fields of agriculture and biogas. Our medium-term focus is on Germany, then Europe, followed by worldwide expansion in the long term.
