

EVERS TRANSPORT & LOGISTICS GMBH/ B.V.

Your reliable partner throughout Europe

We especially benefit from the long-standing expert knowledge that the latter has been able to accumulate over 140 years. The well-selected network of service partners and an ideal resource combinations have further improved our market position. On the following pages, we would like to present the range of services that our 10-year-old subsidiary offers.

Enjoy!

Stephan Evers, Rik Groot-Zevert, Christian Evers
Management

On the road for over 140 years

In 2013, a young company emerged from an already existing field of work: we founded Evers Transport & Logistics GmbH/ B.V as a subsidiary of the company Evers Viehhandelsgesellschaft mbH. We mainly operate in livestock transport and freight transport, thus rounding out the cooperative ties with our customers throughout Europe. This business decision saw countless efficiency and synergy effects take root with Evers Viehhandelsgesellschaft mbH.

Reliable transport of livestock and goods

From livestock transport to forklift and refrigerated vehicle transport, we are your reliable and highly experienced specialist in all areas. Our professional customer service is ready to help you with whatever you need. Throughout the entire order processing stage, we guarantee quality, 24/7 service and security.

In 2021, our business segment expanded across Europe with forklift and refrigerated vehicle freight transport. Our well-trained professional drivers are always safe and reliable for our customers on the road.

Livestock transport / EU collection point – safe and clean

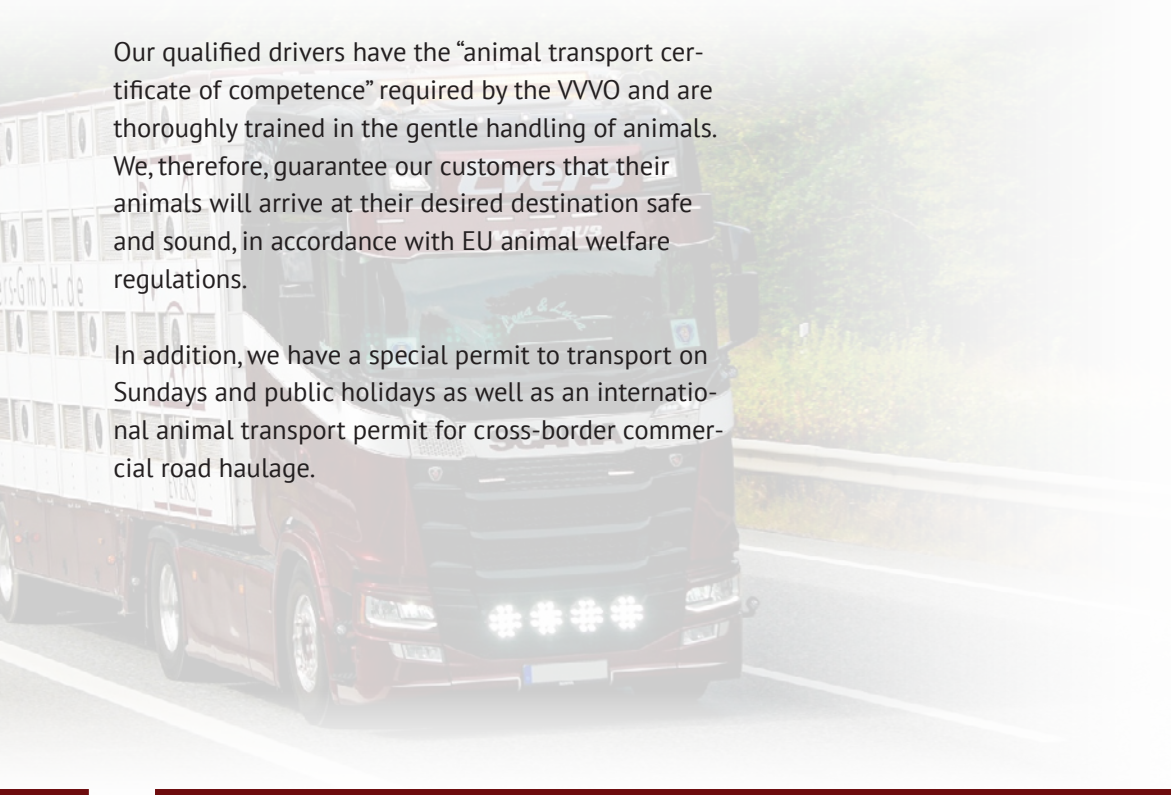

Before the animals are transported, regular cleaning and disinfection measures ensure the healthy growth and high performance of the animals while in the pens.

Our on-site washing and sanitation facility guarantees that our trucks are sanitized and cleaned in all weather conditions in accordance with the Animal Welfare Transport Law.

The same applies to our on-site 24/7 EU collection point, which is suitable for giving animals a rest and food break for 24 hours.

Our qualified drivers have the “animal transport certificate of competence” required by the VVVO and are thoroughly trained in the gentle handling of animals. We, therefore, guarantee our customers that their animals will arrive at their desired destination safe and sound, in accordance with EU animal welfare regulations.

In addition, we have a special permit to transport on Sundays and public holidays as well as an international animal transport permit for cross-border commercial road haulage.

Freight transport

The last 10 years have seen us establish our service in the field of freight transport. We transport goods within Europe in a safe and straightforward manner. Our speciality here is the transport of forklifts and industrial vehicles. In addition to our many years of experience, our customers benefit from forklifts and goods being stored in our warehouse.

Whether it is Greece or Germany, we will reliably transport your goods throughout Europe.

Fleet

With our fleet of 21 units including trailers and truck-trailer combinations, we are your reliable partner for on-time transport on the road.

- Eight livestock carriers in different sizes
- 1–4 storey trucks are available as required
- Two insulated livestock trailers with animal-friendly temperature adjustment and air filtration
- Six refrigerated vehicles
- Seven forklift transporters

Our team of experts ensures that the cargo's condition retains its high level of quality until the desired destination is reached.

We are also happy to organise your transport.
Get in touch!

Word of thanks

We would like to take this opportunity to thank all our employees, service partners and loyal customers.

In the last 10 years, our reliable transport company has been able to add more fields of activity and areas of operation to its profile.

We look forward to further cooperation!
