

Solutions for
efficient
final packaging

ABOUT US

Our experience makes the difference

When experience makes the difference: Welcome to Maschinenbau Knecht GmbH in Weisel. We are a medium-sized, owner-managed company having around 35 years of experience in erecting, filling and sealing shipping cartons. We plan, design, program, manufacture and assemble our machines in-house at our site in Weisel.

Around 30 mostly long-standing employees are at your service to always find the optimal solution to your assignment. We don't offer off-the-shelf machines. We conceptualize, design and optimize according to customer requirements. This individual approach to tasks is our distinguishing feature and sets us apart from our market partners. In addition to special technical solutions and our proven competence, we are highly flexible and your preferred contact when it comes to tricky tasks!

Simply integrate our individual machines into your existing system or let us advise you on a new complete solution. The modular design of our machines enables us to adapt to your requirements in a fast, flexible and individual manner. Our portfolio includes numerous machines that have been tried and tested in various sectors for many years.

In short, our range of services and products offers you reliable service throughout the entire life cycle of the system. Get an idea of our products and let us inspire you.
