your stuff**

Welcome to WDM Deutenberg!

Our team
in Wolfshagen

Our team
in Ense

Our team
in Leisnig

As a competent specialist in wire technology, we offer highly precise and efficient manufacturing – Made in Germany. With over 250 employees and a state-of-the-art machinery fleet, we have been producing all kinds of wire products for more than 65 years. Across our locations in Wolfshagen, Ense, and Leisnig, we operate more than 30 spot welding systems and CNC-controlled high-end machines for bending, edging, and punching – all on a total production area of over 30,000 m².

Our skilled team manufactures high-quality products, provides customer-focused service, and impresses with flexibility and reliability. From animal husbandry and warehouse logistics to installation technology and custom manufacturing, we produce premium products made from various grades of steel. At the same time, we are already looking toward the future – placing great importance on the sustainable use of resources.

We believe in long-term partnerships with our suppliers and partners – based on fairness and mutual trust.

1959

Deutenberg is founded as a commercial enterprise.

1962

WDM is founded as a state-owned enterprise.

1993

Foundation of Midrahtec in Leisnig (Saxony).

2008

WDM enters the three-dimensional manufacturing sector.

22.000+

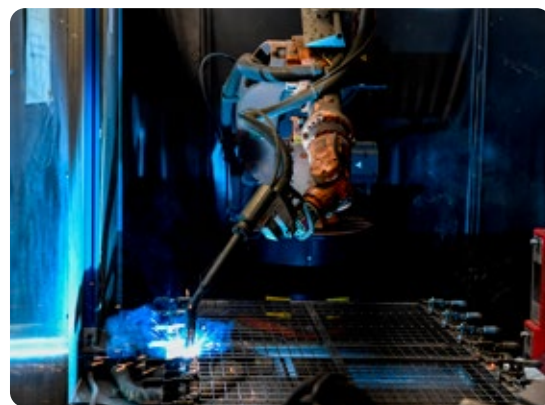

tons of wire processed
annually

30+

Welding machines

10+ Mio.

produced steel grids

Shipping and production in Ense

2014

First execution of large-scale projects:
start in the field of warehouse logistics
with a total volume in double-digit
Euro range.

2019

Expansion of
WDM through
the acquisition of
Midrahtec.

2021

Merger of the
companies WDM and
Deutenberg.

TODAY

Positioning on the
market as the largest
manufacturer of individual
wire mesh in Europe.

Green solutions for a strong future

We attach great importance to sustainable solutions to contribute to a future worth living. We take responsibility for our ecological footprint. Through targeted selection of suppliers with optimized CO2 process chains we push ahead the use of **green steel** and set an example for a sustainable economic activity. Furthermore, we focus on **recyclable materials, LED lighting, reusable packaging** and **energy utilization from biogas**. In combination with our **energy management system**, we can reduce our carbon footprint significantly.

With this approach, we support the following UN goals, among others:

- Promoting sustainable industrialization (Goal 9)
- Ensuring responsible consumption and sustainable production (Goal 12)
- Concrete measures for climate protection (Goal 13).

Goals for sustainable development

Goal 9:

Industry, innovation and infrastructure

Promote sustainable industrialization.

Goal 12:

Responsible consumption and production

Ensuring sustainable production methods.

Goal 13:

Climate protection measures

Reduction of greenhouse gas emissions.

The suitable solution for every requirement

With our extensive product portfolio and proven modular principle, we offer tailor-made solutions for a wide range of requirements. Whether standard

products or individual custom-made products – at WDM Deutenberg we combine quality, versatility and precision for your projects.

Product types

Industrial and welded wire mesh	Grid systems Partition walls, frames, reinforcements, cages, mats, floors
Wire baskets	
Pull-out systems 3D Geometries	Gabion solutions Gabion fences, gabion baskets, noise protection
Individual custom-made products	

Materials

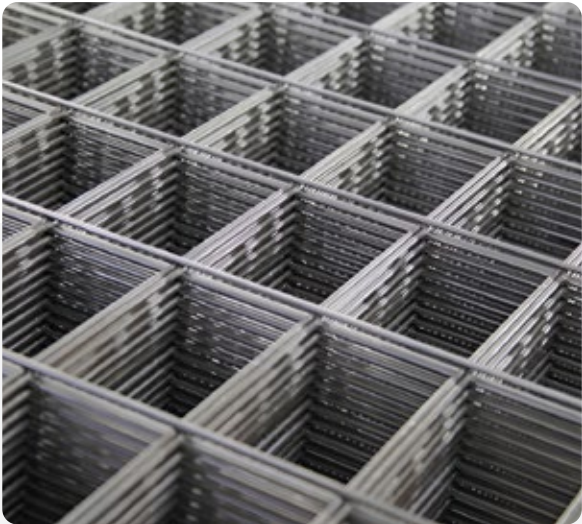

Bare wire	Galvanized wire
Zinc-aluminum coated wire	Stainless steel wire

Material thicknesses

Wire diameter between 1.6 and 18 millimeters
--

Finishing and assembly

Surface finishing: powder coating, galvanizing, staining and passivation, electropolishing
Component assembly

Where service shines, success follows

Experience the difference that premium service makes to your business.

From the initial idea to planning and final implementation, we are at your side as a reliable partner. With technical expertise and individual solutions, we provide efficient and targeted support for your projects.

Your success, our commitment: We are there for you!

Together we develop customized solutions that not only impress, but also set new standards of excellence.

Project partner with vision - we turn vision into impressive results

Decades of expertise and numerous challenges have taught us to understand and precisely implement the diverse requirements of our customers. As a competent partner, we offer comprehensive and customized concepts that make it easier than ever to find the ideal wire solution for your project. Whether it is an individual solution with a small production run, the establishment of a series article or a large-scale project with high quantities - we will realize your ideas.

EXPERTISE

Experience in handling projects of all sizes

EFFICIENCY

Completion within the desired timeline

RELIABILITY

Personal support and service at eye level

INNOVATION

In-house engineering including property rights - such as utility model protection and patents

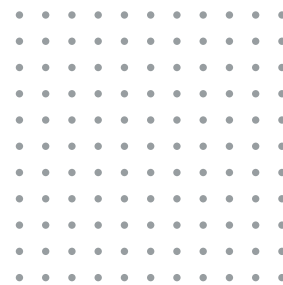

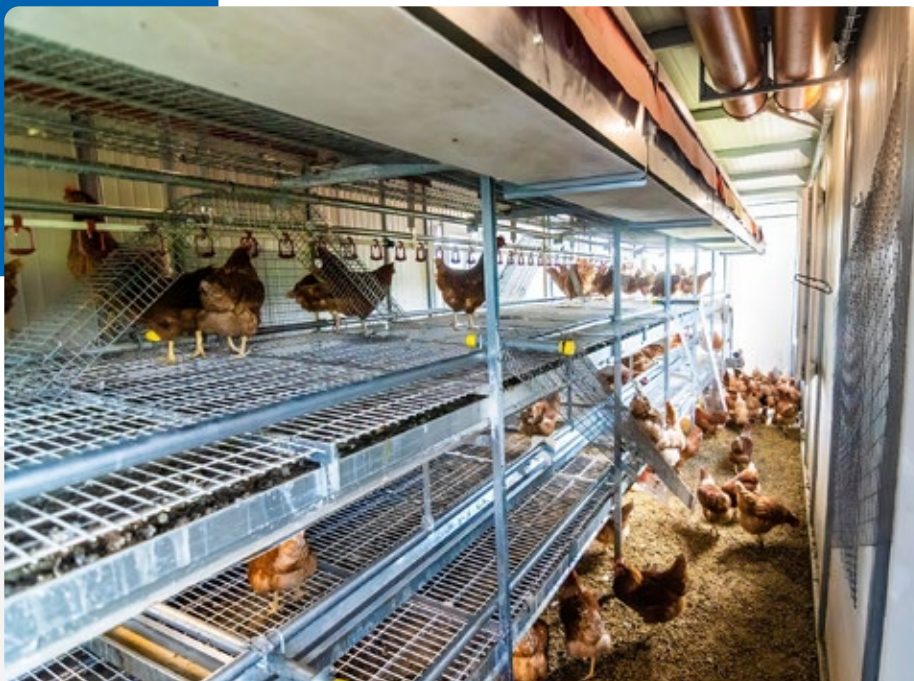

Wire solutions for modern livestock farming

The demands on modern animal housing systems have increased significantly in recent years. In poultry farming in particular, the challenge lies in designing industrial housing that is both hygienic and animal-friendly.

Wire mesh plays a key role in this process: it ensures easy cleaning and optimal air circulation.

For our customer base – manufacturers of modern integrated systems – we develop and produce customized mesh solutions that offer greater comfort for the animals while meeting the industry's high standards.

By combining technical expertise with modern technology, we create products that meet the needs of animals, keepers, and end customers alike.

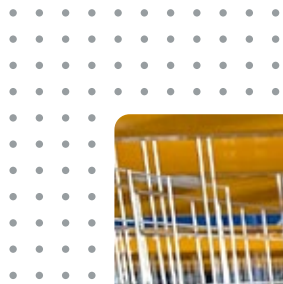

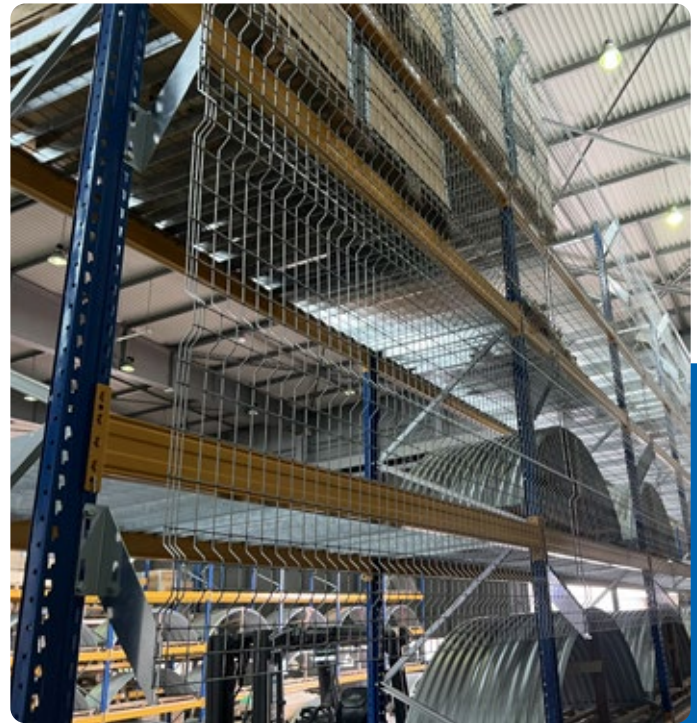

Space utilization redefined

Robust and flexible systems are essential in modern warehouse logistics.

Our welded mesh from the **DEBION®** product range provides the ideal basis for storage shelves, shelving systems and partition walls.

They guarantee stability, safety and efficient use of space.

By working closely with our partners, we develop tailor-made solutions that meet the specific requirements of your project.

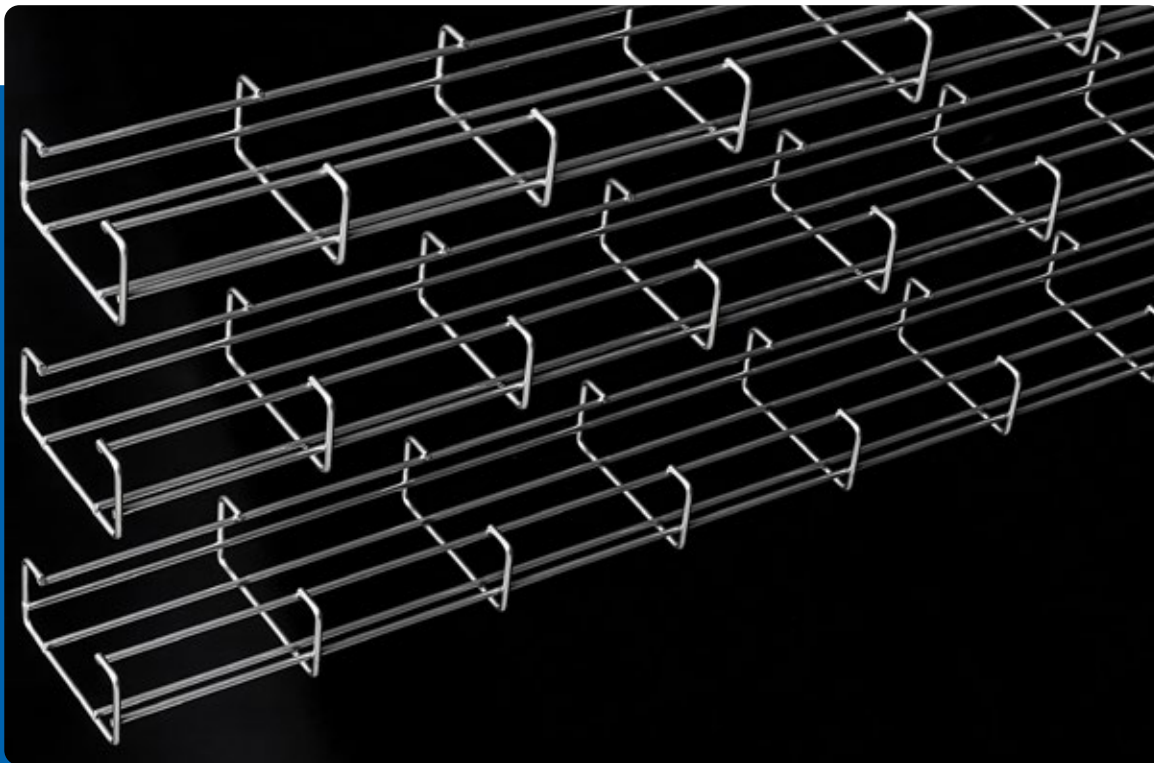

Reliability in every component

Installation technology requires precise and reliable components.

Our wire mesh is used in cable trays, ventilation grilles and as protective covers.

They offer flexibility and durability to meet the high standards of installation engineering.

We create products that meet the needs of installers and end users.

Robust, versatile, aesthetic, ecological

Gabions have become an integral part of modern infrastructure. Whether as noise and privacy protection, retaining walls or design elements - our **DEBION®** gabions impress with their simple installation, durability and ecological benefits. In close cooperation with construction companies and local authorities, we develop customized solutions for a wide range of applications.

ALLES WAS DU FÜRS LEBEN BRAUCHST

Wir sind die Spedition für Ihre **großen oder kleinen logistischen Projekte**, denn wir übernehmen sämtliche Leistungen im Transport für Sie! Darüber hinaus beraten wir Sie schon im Vorfeld ausführlich. Bei der exakten Planung sowie einer zeitnahen Umsetzung helfen wir Ihnen gerne.

Problemlos transportieren wir Stückgüter aller Art. Wir und unsere Partner geben alles, um Sie zufrieden zu stellen.

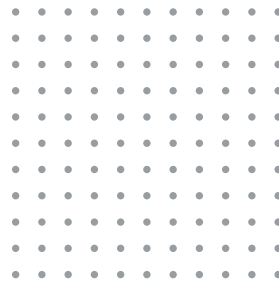

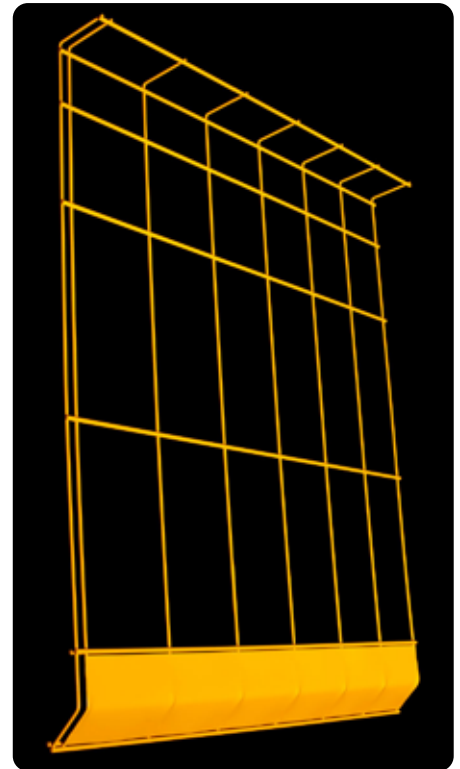

Spedition und Güterkraftverkehr Uwe Schäffer e.K. - Uenzer Dorfstr. 42 - 19339 Plattenburg- Tel: +49 38784 9065-0 - info@spedition-schaeffer.de

Safe, flexible, durable

Protective grid systems are essential for occupational safety in mechanical and plant engineering.

Our welded mesh guards are the basis for various protective devices that guarantee your safety and, of course, also comply with legal requirements.

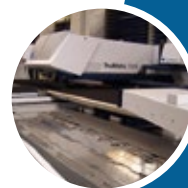

Thanks to our high level of production depth, we guarantee tailor-made solutions for every application.

**Von der Idee zur Realität –
Ihr Partner für Materialtrennung
und -bearbeitung**

Unsere Leistungen

- ✓ **Laserschneiden:** Höchste Präzision bei komplexen Konturen.
- ✓ **Wasserstrahlschneiden:** Flexibel und materialschonend.
- ✓ **CNC-Biegen:** Perfekte Formgebung für Ihre Bauteile.
- ✓ **Mechanische Bearbeitung:** Fräsen, Bohren und Drehen mit modernster Technik.

Über 25 Jahre
Erfahrung

Foundations for great things

The construction industry relies on dependable materials for a wide range of applications. Our reinforcement meshes are certified by MPA NRW and meet the highest quality standards. They are used in new construction projects, as corner and side protection meshes, and for general site safety.

With flexible manufacturing options, we provide tailored solutions for every construction project.

Workpiece carriers - Efficient transport and secure grip

Our workpiece carriers are specially designed to transport and store sensitive parts safely.

Thanks to millimeter-precise manufacturing, they adapt perfectly to the geometry of your workpieces.

Whether in production, cleaning or storage - our products guarantee precision and reliability.

Basket systems - flexibility meets stability

Wire basket systems are the ideal choice for practical handling and space-saving storage.

With robust materials and a sophisticated design, they offer the perfect combination of functionality and durability. Whether stacking baskets or cleaning baskets - we manufacture according to your needs.

Rethinking sales areas - Wire solutions for shopfitting

Wire mesh solutions in shopfitting create order and present products in the best possible way. Whether as flexible shelving, product displays or individual solutions - our products combine functionality with attractive design and adapt perfectly to any sales area.

Light, stable and versatile

For furniture and caravans, our wire solutions offer maximum flexibility with minimum weight.

Whether for decorative elements or functional applications - we design products that combine your individual needs with modern design.

Bezinal®5000 Gabionendraht-Lösungen

Der führende Partner für eine zukunftsweisende
Gestaltung unseres Lebens und unserer Mobilität:
sicher, intelligent und nachhaltig.

Bezinal®5000 Drahtlösungen für nachhaltige Gabionen, die ein Leben lang halten.

Durch die Installation von Gabionenwänden anstelle von Betonwänden können Sie bis zu 60 % der CO2-Emissionen einsparen. Angesichts der Verantwortung des Bausektors für fast 40 % der globalen CO2-Emissionen ist die Dekarbonisierung entscheidend für eine Netto-Nullbilanz bis 2050. Kontaktieren Sie uns, um mehr über diese innovative Technologie zu erfahren.

Customized production

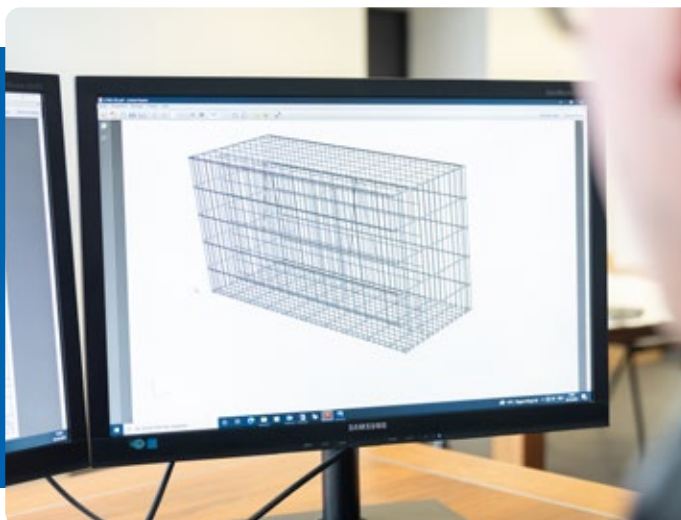

Whether it's special dimensions, materials or designs - we use our broad technical expertise to turn your visions into reality.

We work closely with you to ensure that your project is implemented in the best possible way.

Whether welding, forming, bending or finishing - reliable results from one single source.

Our wire and mesh production includes, among other things:

- **Spot-welded wire mesh:** customizable in various sizes and shapes.
- **Stainless steel mesh and gabions:** perfect for use in landscaping and infrastructure.
- **Custom-made products:** products tailored precisely to your requirements.

We will get it right!

You have special requirements and are looking for a reliable partner to turn your visions into reality? Then get in touch with us!

We look forward to working with you to develop individual solutions and successfully realize your projects.

Discover exciting opportunities in a company that combines innovation and team spirit. At WDM Deutenberg, you will work on varied projects that develop your potential while delivering genuine results.

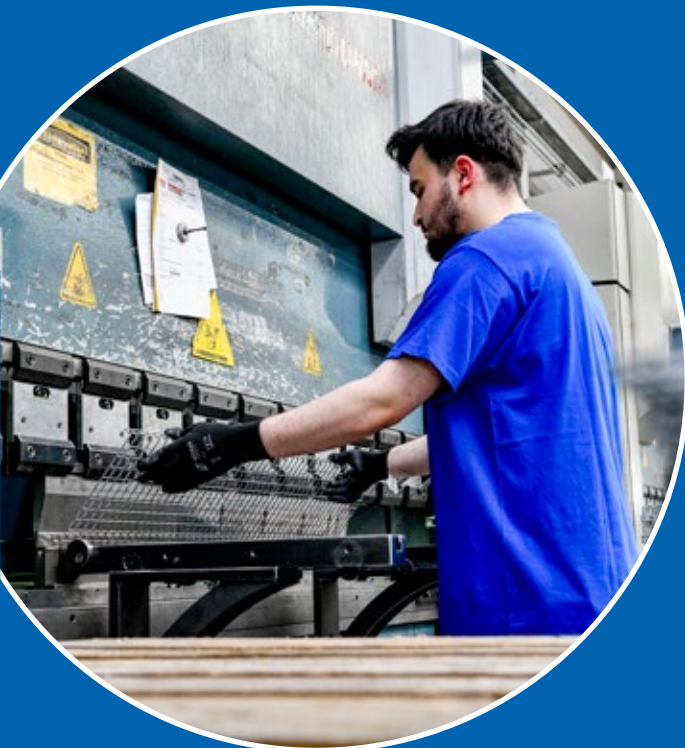

We believe in strong teamwork where every voice counts - including yours!

What we offer:

- **A secure job** in a successful, internationally active company.
- **Personal development:** Further education, training and individual support.
- **Team spirit:** Cooperative atmosphere and flat hierarchies.
- **Attractive benefits:** Modern working environment, flexible working hours and employee events.

What we expect:

- **Commitment:** Readiness for action and personal initiative.
- **Team spirit:** Openness and joy in a shared working day.
- **Specialist knowledge:** Depending on the position - technical know-how and organizational talent.
- **Reliability:** Responsibility and diligence.

What our employees say:

I felt like I belonged from day one. Everyone was very helpful. I was able to familiarise myself quickly.

Detlef

Appreciation is not just an empty phrase for us! The performance of each individual is recognised, individually encouraged and acknowledged accordingly.

Jutta

The highly motivated and qualified team ensures a good working atmosphere and fun at work.

Michael

Become part of our team and let's shape the future together!
