

ALBERT-SCHÄFFLE-SCHULE
Kaufmännische Schule Nürtingen

SOCIAL, COMPETENT, COOPERATIVE

Dear pupils, parents and training companies,

we are pleased to introduce you in this brochure to the Albert Schäffle School (ASS) with our new premises and our extensive educational offer. We are a vocational school with a commercial focus, but we also attach equal importance to general education subjects. The ASS is characterised by the possibility of educational advancement and we live the principle of "no graduation without connection". Because you can come to our school with a lower secondary school leaving certificate, acquire the intermediate secondary school leaving certificate here and then, in the best case, leave with a school leaving certificate. After all, for many years, every third Abitur in BaWü has been obtained at a vocational grammar school like the ASS. Our teachers have excellent subject knowledge, which they pass on to the students using modern teaching methods. We have the claim that attending classes with us is actually worthwhile by imparting job-oriented skills and abilities as well as necessary education. At the same time, learning and teaching at the ASS should be enjoyable.

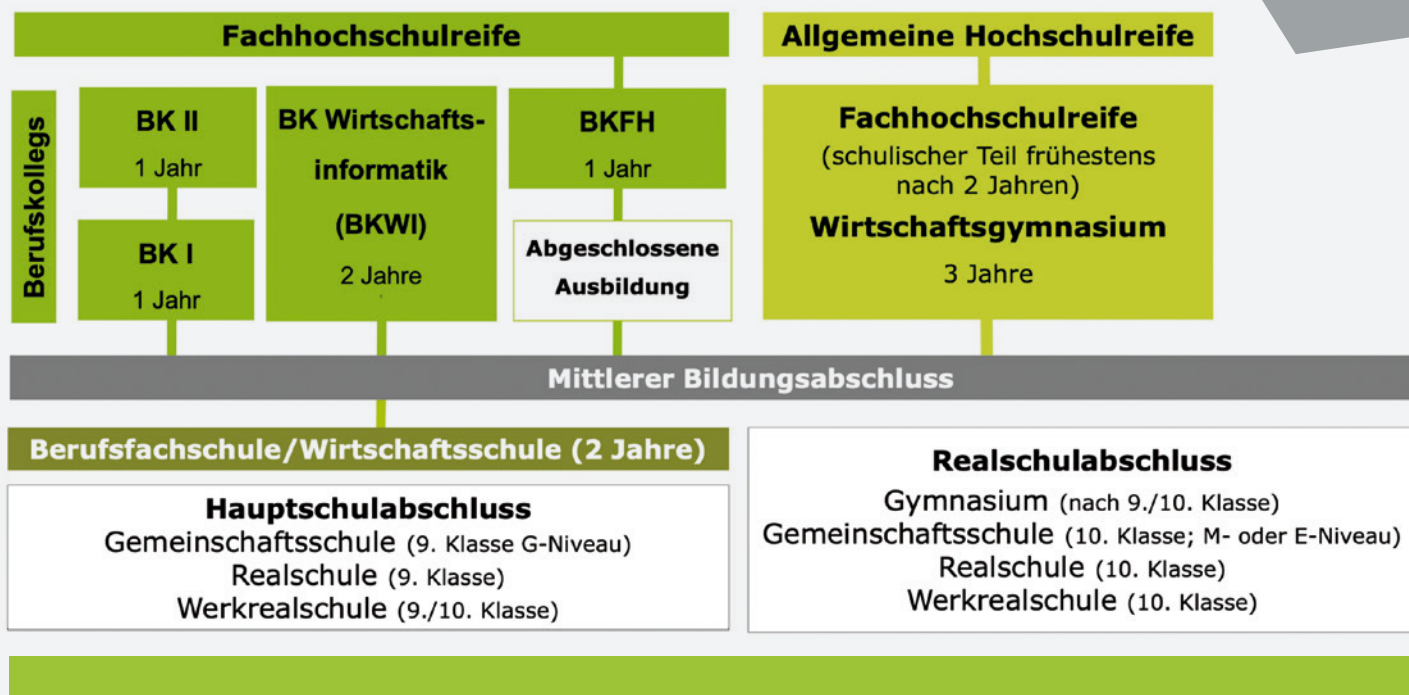

In addition to our professional educational mission, it is important to us to impart basic values of human coexistence and to live a cooperative school community. Soft skills such as helpfulness and tolerance, openness and mutual respect, but also a consistent adherence to rules shape the daily cooperation in our school. This is because they form a strong basis for later professional success. Learning for life in order to be successful at work is our vision and our educational goal.

Sincerely,
the school management team of the Albert-Schäffle-Schule

WE COLLECT PLUS POINTS

- With us, everyone can find the right school-leaving qualification: "Abitur", "Fachhochschulreife" or "Mittlere Reife".
- We offer you optimal learning conditions with lots of daylight, state-of-the-art equipment, numerous learning islands, workrooms, a school library and a cafeteria.
- You can expect a pleasant everyday school life with cordial interaction between teachers and students.
- We have clear rules that are observed by everyone.
- We support you with tutoring and exam preparation courses.
- With ten computer rooms and multimedia teaching, we are digitally at the forefront!
- As a commercial school, our subjects and teaching content prepare students for everyday working life. In our junior company and in the training firm, we practise entrepreneurial behaviour and regularly visit companies.
- Many of our teachers have their own professional experience in business.
- Our young and competent team of teachers enjoys teaching.
- Numerous career guidance and counselling services facilitate the transition from school to working life.
- We offer international student exchange projects with "Erasmus+" and organise study trips and excursions.
- School life at the ASS is diverse. We have a student-teacher band, a theatre club, the GASS art gallery and are certified as a Fairtrade School.
- We offer almost all kinds of sports in our well-equipped sports hall and on the outdoor field. We have a climbing club and regularly take part in the Esslingen Run and in "Jugend trainiert für Olympia".
- You can learn English, Spanish and French with us.
- New pupils are integrated within the framework of joint getting-to-know-you activities.

WIRTSCHAFTSSCHULE

Educational Objectives

The Business School ("Wirtschaftsschule") provides a basic commercial education and an extended general education. In two years of full-time instruction, it leads to the "Fachschulreife" ("Mittlere Reife").

Alternative admission requirements

- Secondary school leaving certificate or certificate of completion of the introductory year
- Promotion to grade 10 of "Realschule" or "Gymnasium"
- leaving certificate of the "Realschule" grade 9 or the "Gymnasium" grade 8 (G8), whereby an average of 4.0 must have been achieved in the subjects German, English and Mathematics and a grade of unsatisfactory may have been awarded in no more than one of these subjects
- "Werkrealschulabschluss"
- equivalent qualification (to one of the items listed above) at a community school

Probationary period

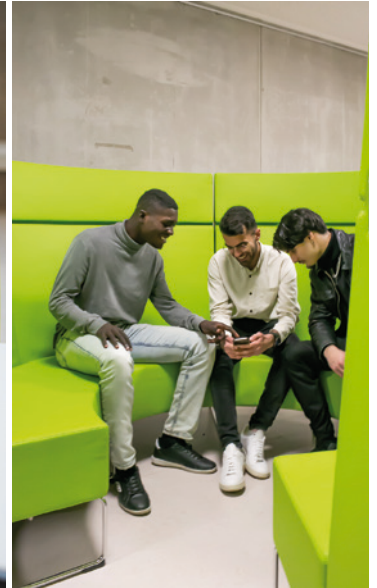

Admission is on a probationary basis. A decision on whether the student has passed the probationary period is made on the basis of the grades of the half-year report (1st school year).

Opportunities after graduation

Good business school students can then attend a vocational college (Fachhochschulreife) or a vocational grammar school (Abitur). In addition, the Wirtschaftsschule offers good prerequisites for commercial vocational training. Attendance at the Wirtschaftsschule exempts students from compulsory vocational schooling if they do not subsequently enter into a training relationship.

Further information on the "Wirtschaftsschule"

The Commercial Vocational School ("Kaufmännische Berufsschule") teaches theoretical aspects that play an important role in the profession. In addition to economics and business administration, legal principles and social aspects are also covered.

The following training occupations are supported at our school:

- Bank clerk
- Retail saleswoman/man
- Management assistant for wholesale and foreign trade management
- Industrial clerk
- Sales assistant

Admission requirements

Anyone who has entered into a training relationship in one of the above five training occupations can be admitted to the commercial vocational school.

Duration of training

Usually 3 years, which can be shortened to 2.5 years with appropriate previous education or good training performance. The standard training period for sales assistants is 2 years.

Modes of schooling

At the Albert-Schäffle-Schule, teaching is based on two models:

- 1 ½ days vocational school – 3 ½ days in the training company
- Block teaching with full-day 4 to 5 week schooling Final exam

Final examination

After passing the written final examination, the students receive a vocational school leaving certificate. At the Chamber of Industry and Commerce (IHK), a practical vocational examination must be taken after the final examination.

Training as a financial assistant

The two-year training program is aimed at trainee bank clerks who want to obtain an additional qualification as a financial assistant. It is aimed at particularly capable trainees and lays the foundation for faster career advancement.

Further information on the Dual Vocational College

Admission requirements

Anyone who has entered into a training relationship in the training occupation of bank clerk with the agreement to attend this vocational college and who has the general or subject-linked higher education entrance qualification can be admitted to the dual vocational college..

Lesson organisation

Lessons at the dual vocational college take place alongside work. The training time at the vocational school is divided into 2 to 5 full- week blocks.t.

Many thanks to our partners

We would like to take this opportunity to express our sincere thanks for the good cooperation and support of our school.

We are looking forward to further cooperation!

Educational goal

The Commercial Vocational College 1 ("Kaufmännisches Berufskolleg 1") with a training firm is a one-year course to prepare students for commercial professions. In addition to a basic commercial education and in-depth general education, business processes as well as technical, methodological and social skills are taught in a practice-oriented manner within the framework of a training firm.

Alternative admission requirements

- Secondary school leaving certificate ("Realschulabschluss", "Fachschulreife" or a course of education equivalent to the "Realschulabschluss")
- Promotion to grade 11 (nine-year course of education) or promotion to grade 10 (eight-year course of education) of a Gymnasium (grammar school)

Probationary period

Admission is on a probationary basis. The grades of the half-year report determine whether the student passes the probationary period.

Closing

Based on the performance in the relevant subjects, a decision is made as to who has successfully completed the training. Graduation exempts from compulsory vocational schooling, provided no vocational training relationship is entered into. If the performance is very good, students can attend the Commercial

Vocational College 2 ("Kaufmännisches Berufskolleg 2") with a training company – with the possibility of obtaining the "Fachhochschulreife".

Further information on Kfm. BK 1 with training firm

Educational goal

"Kaufmännisches Berufskolleg 2 mit Übungsfirma" builds on "Kaufmännisches Berufskolleg 1". The general education is further deepened to enable the acquisition of the entrance qualification for a university of applied sciences. The training lasts one year.

Admission requirements

The final certificate of the "Kaufmännisches Berufskolleg 1" with training firm with a grade average of at least 3.0 in the core subjects (German, English, business administration and mathematics).

Probationary period

Admission is on a probationary basis. The grades of the half-year report determine whether the student passes the probationary period.

Closing

Training at the Commercial Vocational College 2 ends with the final examination in the core subjects. With the final examination, the entrance qualification for a university of applied sciences ("Fachhochschulreife") is acquired.

Pupils who wish to obtain the assistant's certificate must take additional examinations in the practical vocational area and in the elective subjects.

Further information on Kfm. BK 2 with training firm

Educational goal

Preparation for a qualified job in data and information technology-related business and administration areas or for training in IT professions. The students acquire a holistic structural understanding by dealing with integrated business software as well as database management systems and by analysing process chains. Further focal points are word processing and spreadsheets, object-oriented programming and the presentation of companies on the Internet. In addition, general education is further deepened and business-related language competence is taught in English.

Alternative admission requirements

- Secondary school leaving certificate ("Realschulabschluss", "Fachschulreife" or a course of education equivalent to the "Realschulabschluss")
- Promotion to grade 11 (nine-year course of education) or promotion to grade 10 (eight-year course of education) of a Gymnasium (grammar school)
- In mathematics, at least the grade "satisfactory" must be achieved in any case.

Probationary period

Admission is on a probationary basis. The passing of the probationary period is decided on the basis of the grades of the half-year report.

Closing

Upon passing the final examination, the entrance qualification for studies at universities of applied sciences ("Fachhochschulreife") is acquired. If a vocational training relationship is entered into after attending this vocational college, the duration of training is usually shortened.

Pupils who wish to obtain the assistant's degree must take additional examinations in the vocational practical area and in the elective area

Further information

Educational goal

Training at the one-year vocational college for the acquisition of the entrance qualification for studies at universities of applied sciences builds on the intermediate school leaving certificate and a completed vocational training. The qualification for studying at a university of applied sciences is acquired through in-depth general education and specialised theoretical instruction. The acquired qualification entitles the holder to study all subjects at all universities of applied sciences in Germany.

Alternative admission requirements

- entrance qualification for a technical college
- "Realschulabschluss"
- Promotion certificate to grade 11 of a Gymnasium or proof of an equivalent level of education ("Mittlere Reife")

In addition, completion of at least two years of commercial vocational training or relevant professional experience of at least 5 years is required.

Probationary period

All students are initially admitted on probation. The probationary period lasts six months. The probationary period is considered to have been passed if sufficient performance has been achieved in the first half-year.

**Volksbank
Mittlerer Neckar eG**

Educational goal

With the completion of the three-year "Wirtschaftsgymnasium", the students acquire the General High School Entrance Qualification ("Allgemeine Hochschulreife").

In the sense of imparting an advanced general education, the core subjects of the schools previously attended are continued. Due to the special mission of the "Wirtschaftsgymnasium", the subjects of economics are of particular importance. In the profile subject Economics, students learn about economic and business contexts as well as basic knowledge of bookkeeping, commercial calculation and cost accounting. This is supplemented by application-related knowledge in data processing.

Training

In addition to the compulsory subjects, at least one compulsory elective subject must be taken. In addition, further elective subjects – not relevant to the examination – can be taken.

Regulation on the second foreign language

Those who have not already attended the lessons in the second foreign language required for the acquisition of the "Allgemeine Hochschulreife" in grades 7-10 of the "Realschule" or "Gymnasium" must take French or Spanish as an elective subject in grade 11.

Further information about the
"Wirtschaftsgymnasium"

Closing

The education at the "Wirtschaftsgymnasium" is completed with the Abitur examination. Pupils who pass the examination receive the general higher education entrance qualification. This entitles them to study all subjects at all colleges and universities.

Age limit

At the beginning of the school year, the student must not have reached the age of 19 or 22 (in the case of completed vocational training).

The profile "International Business" at the ASS

At the "Wirtschaftsgymnasium" of the ASS, students can take the profile "International Business" in addition to the traditional profile "Business".

This educational profile takes into account the increasing globalisation and internationalisation of the economy and society. Half of the bilingual lessons in the profile subject "International Economics and Business Administration" and in the supplementary compulsory elective subject "Global Studies" take place in English. Step by step, the pupils learn the bilingual content of the lessons and use English more and more naturally as a common form of communication.

Pupils who are interested in economic issues and have a good basic knowledge of foreign languages will find that the international profile offers excellent opportunities for future career orientation.

VABO: Pre-qualification year for work/occupation with focus on acquisition of German language skills

The pre-qualification year for work/profession with a focus on acquiring German language skills ("VABO: Vorqualifizierungsjahr Arbeit/Beruf mit Schwerpunkt Erwerb von Deutschkenntnissen") teaches the basics of the German language and deepens general education. The aim is to master the German language so well at the end of the school year that it will be possible to attend a VAB class in the next school year. It is also possible to start vocational training if the relevant qualifications are available.

The VABO lasts one school year and ends with a final examination. The final examination consists of a written and an oral examination.

Gestalten Sie Ihre Zukunft mit Putzmeister –
Premiumhersteller von Betonpumpen, eingebunden in
ein globales Netzwerk und weltweit tätig.

Ausbildungs- und Studienberufe
