# ABOUT US

**elite Jet Service GmbH -  
Your reliable partner in aircraft maintenance.**

For over 35 years, elite Jet Service GmbH has specialized in aircraft maintenance service and sales. Originally founded in 1987 as a subsidiary of EFS Euro Flight Service GmbH, we quickly established as a reliable maintenance and leading Business jet service partner company. Through our experience as aircraft operators, we are very aware of maintenance costs and offer cost-efficient solutions to our customers.

In 2009 we rebranded as elite Jet Service. In 2019 when we relocated into our new hangar, eJS became part of the Embraer Authorized Service Center Network and Garmin Service and Installation Center offering an even more complete service.

We now have locations in Dortmund and Friedrichshafen. With a total of about 85 employees, our team consists of highly experienced professionals who are up to date with the latest technology through regular training and education. We are committed to the highest standards of maintenance to provide you, the customer, with the highest level of safety and reliability.

# SERVICE

## We take care of everything around your aircraft needs

For over 35 years, we have been providing comprehensive maintenance, modification and repair services for business and private aircraft. From a small operation, grown into a mid-sized company known for quick responses, customized service and innovative solutions. At elite Jet Service, we take care of everything your aircraft may need to get back into the air.

Whether you are in an AOG condition or need structure repairs, we know the shortest route to get your airplane back into service.

# CAMO/CAMO+

## **Dynamism and commitment are our hallmarks**

Our certified CAMO+ organization (Continuing Airworthiness Management Organization) takes care of the complete continuing airworthiness service of your aircraft. Efficient maintenance management must provide cost efficiency to the operator while ensuring high maintenance standards to minimize aircraft downtime.

Our experienced team will work closely with you to find individual solutions for your aircraft. In case you have any questions or queries, please contact our CAMO department. We will be happy to assist you.

E-mail: [camo@elitejet.de](mailto:camo@elitejet.de)

[www.elitejet.de](http://www.elitejet.de)

## **The responsibilities of the CAMO:**

- Manage the continuing airworthiness and preparation of maintenance programs
- Modifications and repair measures
- Monitoring implementation of maintenance in accordance with the approved maintenance program
- Monitoring the manufacturer's instructions and airworthiness directives
- Monitoring and planning of maintenance measures and setaside objections
- Documentation / tech log monitoring and storage
- Management of operating time overviews
- Create adequate maintenance contracts
- Support for owner and registration
- AOG
- Conduct of Airworthiness review
- Liaising with the Authorities

# SERVICE

## Experience and service at an affordable price

Fast problem solving, sound technical support and personal, individual customer service are our trademark. Short response times of our technical support and the know-how and flexibility of our employees have proven their worth. Our rapid response team is available anywhere and at any given time to find a solution to your concerns quickly and effectively.

# AIRCRAFT SALES & AQUISITION

**Expertise for aircraft purchase and sale:  
our comprehensive support every step of the way**

Our expert team supports you in the purchase or sale of your aircraft by providing comprehensive advice and market analysis. We guide you through the prepurchase inspection and through the complex acquisition process, including acceptance and takeover. We analyze all maintenance records for completeness, for compliance with the regulation of the actual state of registration and for future equipment mandates.

For import or export activities, we provide technical and administrative support. A complete inspection report will be prepared that includes grading and recommendations. We also provide technical support during the import or export handling, also providing FAA DAR inspectors and FAA IA to prepare the technical documents for transfer and acceptance by the new CAA.

**AIRCRAFT GENERATOR  
AND STARTER SERVICE**

**We support aircraft AC and DC  
power generation equipment and  
starters across a wide range  
of fixed and rotary wing platforms**

With our unique computerized test stand, we can  
overhaul more than 280 types of  
Starter-Generators, AC-Generators,  
DC-Generators and Starters, installed in over  
450 different types of aircrafts from the leading  
manufacturers.

# CAREER AT ELITE JET

## **Become part of our successful team**

We are looking for reinforcement! Become a part of our team at Elite Jet and work in a company that is characterized by high flexibility and individual customer service. As an employer, we offer our employees numerous benefits. We encourage the individual development of each team member and keep their knowledge up to date on a regular basis.

To keep our team fit and healthy, we support the switch to a job bike and offer regular barbecue events where the team can exchange ideas over good food and a relaxed atmosphere.

We have also thought of the little things: our team can enjoy free water and coffee, and every Thursday there is a joint lunch for the entire team.

If you would like to become part of our team and are interested in a career at elite Jet, apply now and send us your documents. We look forward to receiving your CV!
